### OBJECTS OF THE COMPANY AND PROSPECTUS

The Company had been incorporated in the Andhra State on 23-6-1955 for the several purposes set out in the Memorandum of Association. The main objects of the Company is to carry on the manufacture and sell Portland Cement. The Company obtained the Certificate of Commencement of Business on 20-10-1955. The sponsors of the Company obtained an industrial licence for the establishment of a cement factory of a capacity of 200 tons per day. The Company constructed the factory near Bugganipalli and the factory went into production on 1st January, 1959 and has been producing cement to the sanctioned capacity of 200 tons per day.

In spite of the steady expansion and increased production of cement in India, there is now an acute shortage of cement all over the Country. The demand for cement is still growing steadily. The expansion programme outlined in the Third Five year Plan has provided for large public works, hydro-electric projects, laying of highways and construction of bridges and large buildings. The Srisailem Project in the Kurnool District provided for in the Third Five Year Plan will furnish a ready market near the factory for its products. Apart from the above public demand, the requirement of cement by industries in the private sector and for house building activities is also to be met. Thus a considerable increase in demand for cement all over India and in particular in Andhra Pradesh is anticipated.

The Directors consider that it will be profitable and advantageous to expand the production of the factory substantially, and this company has good facilities and advantages for economic and profitable expansion of the existing production. The experience acquired by the existing production. The experience acquired by the staff and the technicians of the company in the manufacture of cement will facilitate the efficient carrying on of the additional unit to be established. Further the increase in production will operate to reduce the overhead expenses. The Directors consider that such expansion will add substantially to the net profits of the company and will procure adequate and satisfactory return for the investments necessary for the purpose.

The Directors have therefore applied for and obtained a Licence under the Industries (Development and Regulation) Act, 1951 for the proposed expansion.

### EXPANSION PROGRAMME

Licence No. L/35(1)/60-Cement dated 5th November 1960 has been granted by the Central Government and under this, it is proposed to step up the capacity of the factory to 500 tonnes per day by installing an additional plant for the manufacture of 300/330 tonnes of Portland cement per day.

### PLANT AND MACHINERY

The complete equipment for this expansion by wet process, has been ordered on 2nd March 1961 from Messrs. A. C. C. Vickers-Babcock Ltd., Bombay and an advance of Rs. 15,60,000 has already been paid to them. The foreign exchange in respect of the necessary imported components has already been obtained. The expansion project to be taken up will cover semi-mechanisation of the limestone quarries with crushing plant at the loading station itself and an installation of overhead traveling crane also in the storage yard of the factory in addition to the main plant consisting of 300 tonnes kiln, raw mill, cement mill, coal mill, packing plant, and the respective accessories.

Messrs. Associated Cement Companies Ltd. have already been granted Import Licence No. 995499/UK/30/60-HQ-CG-1 dated 18-8-61, Licence No. 991479/TPVGC/61-HQ-CG-1 dated 22-12-61 and Licence No. 991478/Cash/61/HQ-CG-1 dated 22-12-61 for import from (1) U.K., (2) West Germany and (3) Italy, Sweden and Denmark, of special castings, and equipment required for the manufacture of the indigenous machinery and also electrical motors, gear boxes etc., for this plant.

### MANAGEMENT

Messrs. Panyam Industrial Agencies Private Ltd., were appointed the Managing Agents of the Company for a period of 10 years initially on the basis of an agreement executed on 2-12-1955 with the approval of the Central Government. The remuneration of the Managing Agents was fixed at 10% of the annual net profits of the Company as defined by Sec. 349 of the Companies Act, 1956. By Sec. 330 of the Companies Act, the said office of the Managing Agents became liable to termination on 15-8-1960. The Government of India have by their letters No. 1 (346) C-11/59 dated 14-11-1959 and No. 1 (346) C-11/59 dated 20-1-1960 accorded their sanction for the continuation of Panyam Industrial Agencies Private Ltd., as Managing Agents for a further period of 5 years from 15-8-1960 on the following remuneration and terms.

The remuneration is payable to the Managing Agents in accordance with the scale of commission on the net profits of the Company computed in the manner laid down in Secs. 349 to 351 of the Companies Act, 1956 namely, 10% on the first Rs. Ten lakhs or fraction thereof and on the usual sliding scale on net profits over Rs. Ten lakhs.

The subscribed capital of the Managing Agency Company is Rs. 4,51,000.

### CAPITAL REQUIREMENTS AND MINIMUM SUBSCRIPTION
